

For Immediate Release

Seamless Technologies Expands ITIL® Middleware Suite with Opsware OMDB-to-BMC Atrium CMDB Connector

Tightly Integrates Opsware OMDB with BMC Software Atrium CMDB to Simplify Management and Deliver Better Visibility

OpsWorld 2007, San Diego, CA, September 17, 2007 – Seamless Technologies, Inc., a leading innovator of IT service management solutions, today expanded its Seamless ITIL Middleware Suite with the Seamless Link for Opsware OMDB-to-BMC Atrium Configuration Management Database (CMDB) Connector, a turnkey, easy-to-use software bridge that automates and tightly integrates operational data from Opsware OMDB and configuration data from the BMC Software Atrium CMDB. This seamlessly unifies disparate data into a single system, delivering better overall visibility, simplifying data center management and improving overall service quality. Seamless Technologies will be showcasing its solutions this week at **OpsWorld 2007, Seamless Technologies Booth #25**.

“The need to merge data center resources has become more critical than ever,” said Kevin Johnson, president and founder of Seamless Technologies. “Our Seamless Link for Opsware OMDB-to-BMC Atrium CMDB Connector integrates the operational data used to configure and provision data center elements with the configuration data used to request and approve changes. This integration yields a single, unified view with numerous benefits including an automated closed loop system for optimizing data center operations and maximizing quality of service.”

Key advantages include:

- **Simplified Integration and Management:** Creates a single source for managing operational and configuration data
- **Robust Opsware OMDB-to-BMC Atrium CMDB Integration:** Provides tight links between Opsware OMDB and BMC Atrium using APIs, including real-time synchronization and system updates
- **Out-of-the-Box Installation and Customization:** Requires no additional hardware or software and is easily customizable with customer-specific data
- **ITIL Compliance:** Meets ITIL v2, v3 best practices compliant standards

Available immediately, the Seamless Link for Opsware OMDB-to-BMC Atrium CMDB Connector supports the following platforms: Opsware OMDB v1.0.1; BMC Atrium CMDB v1.1 or 2.0; Microsoft Windows, Remedy AR System v 6.x, 7.x. Pricing and demonstrations are available at www.seamlessti.com.

About Seamless Technologies

Since 1995, Seamless Technologies, Inc. has been a forerunner in IT service management solutions integrating products like BMC Atrium CMDB with Opsware OMDB and other solutions. Seamless provides consulting, best-of-breed technology products and ITIL best practices aligned to business objectives. Seamless Technologies offerings are proven in healthcare, telecommunications and financial services where availability and performance are critical. Seamless is a BMC Software Technology Alliance

Partner, a BMC BSM Certified Partner, a Microsoft Technology Adoption Program member and an Opware Technology and Channel Partner. For more information, visit www.seamlessti.com.
